Breakfast Symposium

Confront the Wavefront

The Scientific Rationale for Wavefront-Guided
and Wavefront-Optimized Treatments

 WaveLight®

Sunday, March 19, 2006

7:00 – 9:00 am

The Four Seasons Hotel, Veranda Ballroom B

Breakfast Symposium

Confront the Wavefront

The Scientific Rationale for Wavefront-Guided
and Wavefront-Optimized Treatments

AGENDA

- The Rationale behind the Development of Wavefront-Optimized Ablations, Theo Seiler, MD, PhD
- Interim Results from the Ongoing FDA Clinical Trials for Wavefront-Guided Treatments with the ALLEGRETTO WAVE, Guy M. Kezirian, MD, FACS
- Comparison of Optical Zones with Different Ablation Profiles, Charles R. Moore, MD, FACS
- Preliminary Results from a Comparison Study of Hyperopia Using Wavefront-Optimized Technology, Daniel S. Durrie, MD
- Discussion

Using the right customization method is a key element for successful refractive treatment.

WaveLight invites you to an educational forum that will discuss the scientific background of wavefront-optimized and wavefront-guided technology and their clinical benefits. Participate in a symposium that focuses on the decision criteria for the correct use of these two different customization tools.

To register for the symposium, we kindly ask you to send an e-mail to schopp@wavelight-laser.com.
